

The hat of a clown gets stuck at a very high spot. Now, he must get it back.

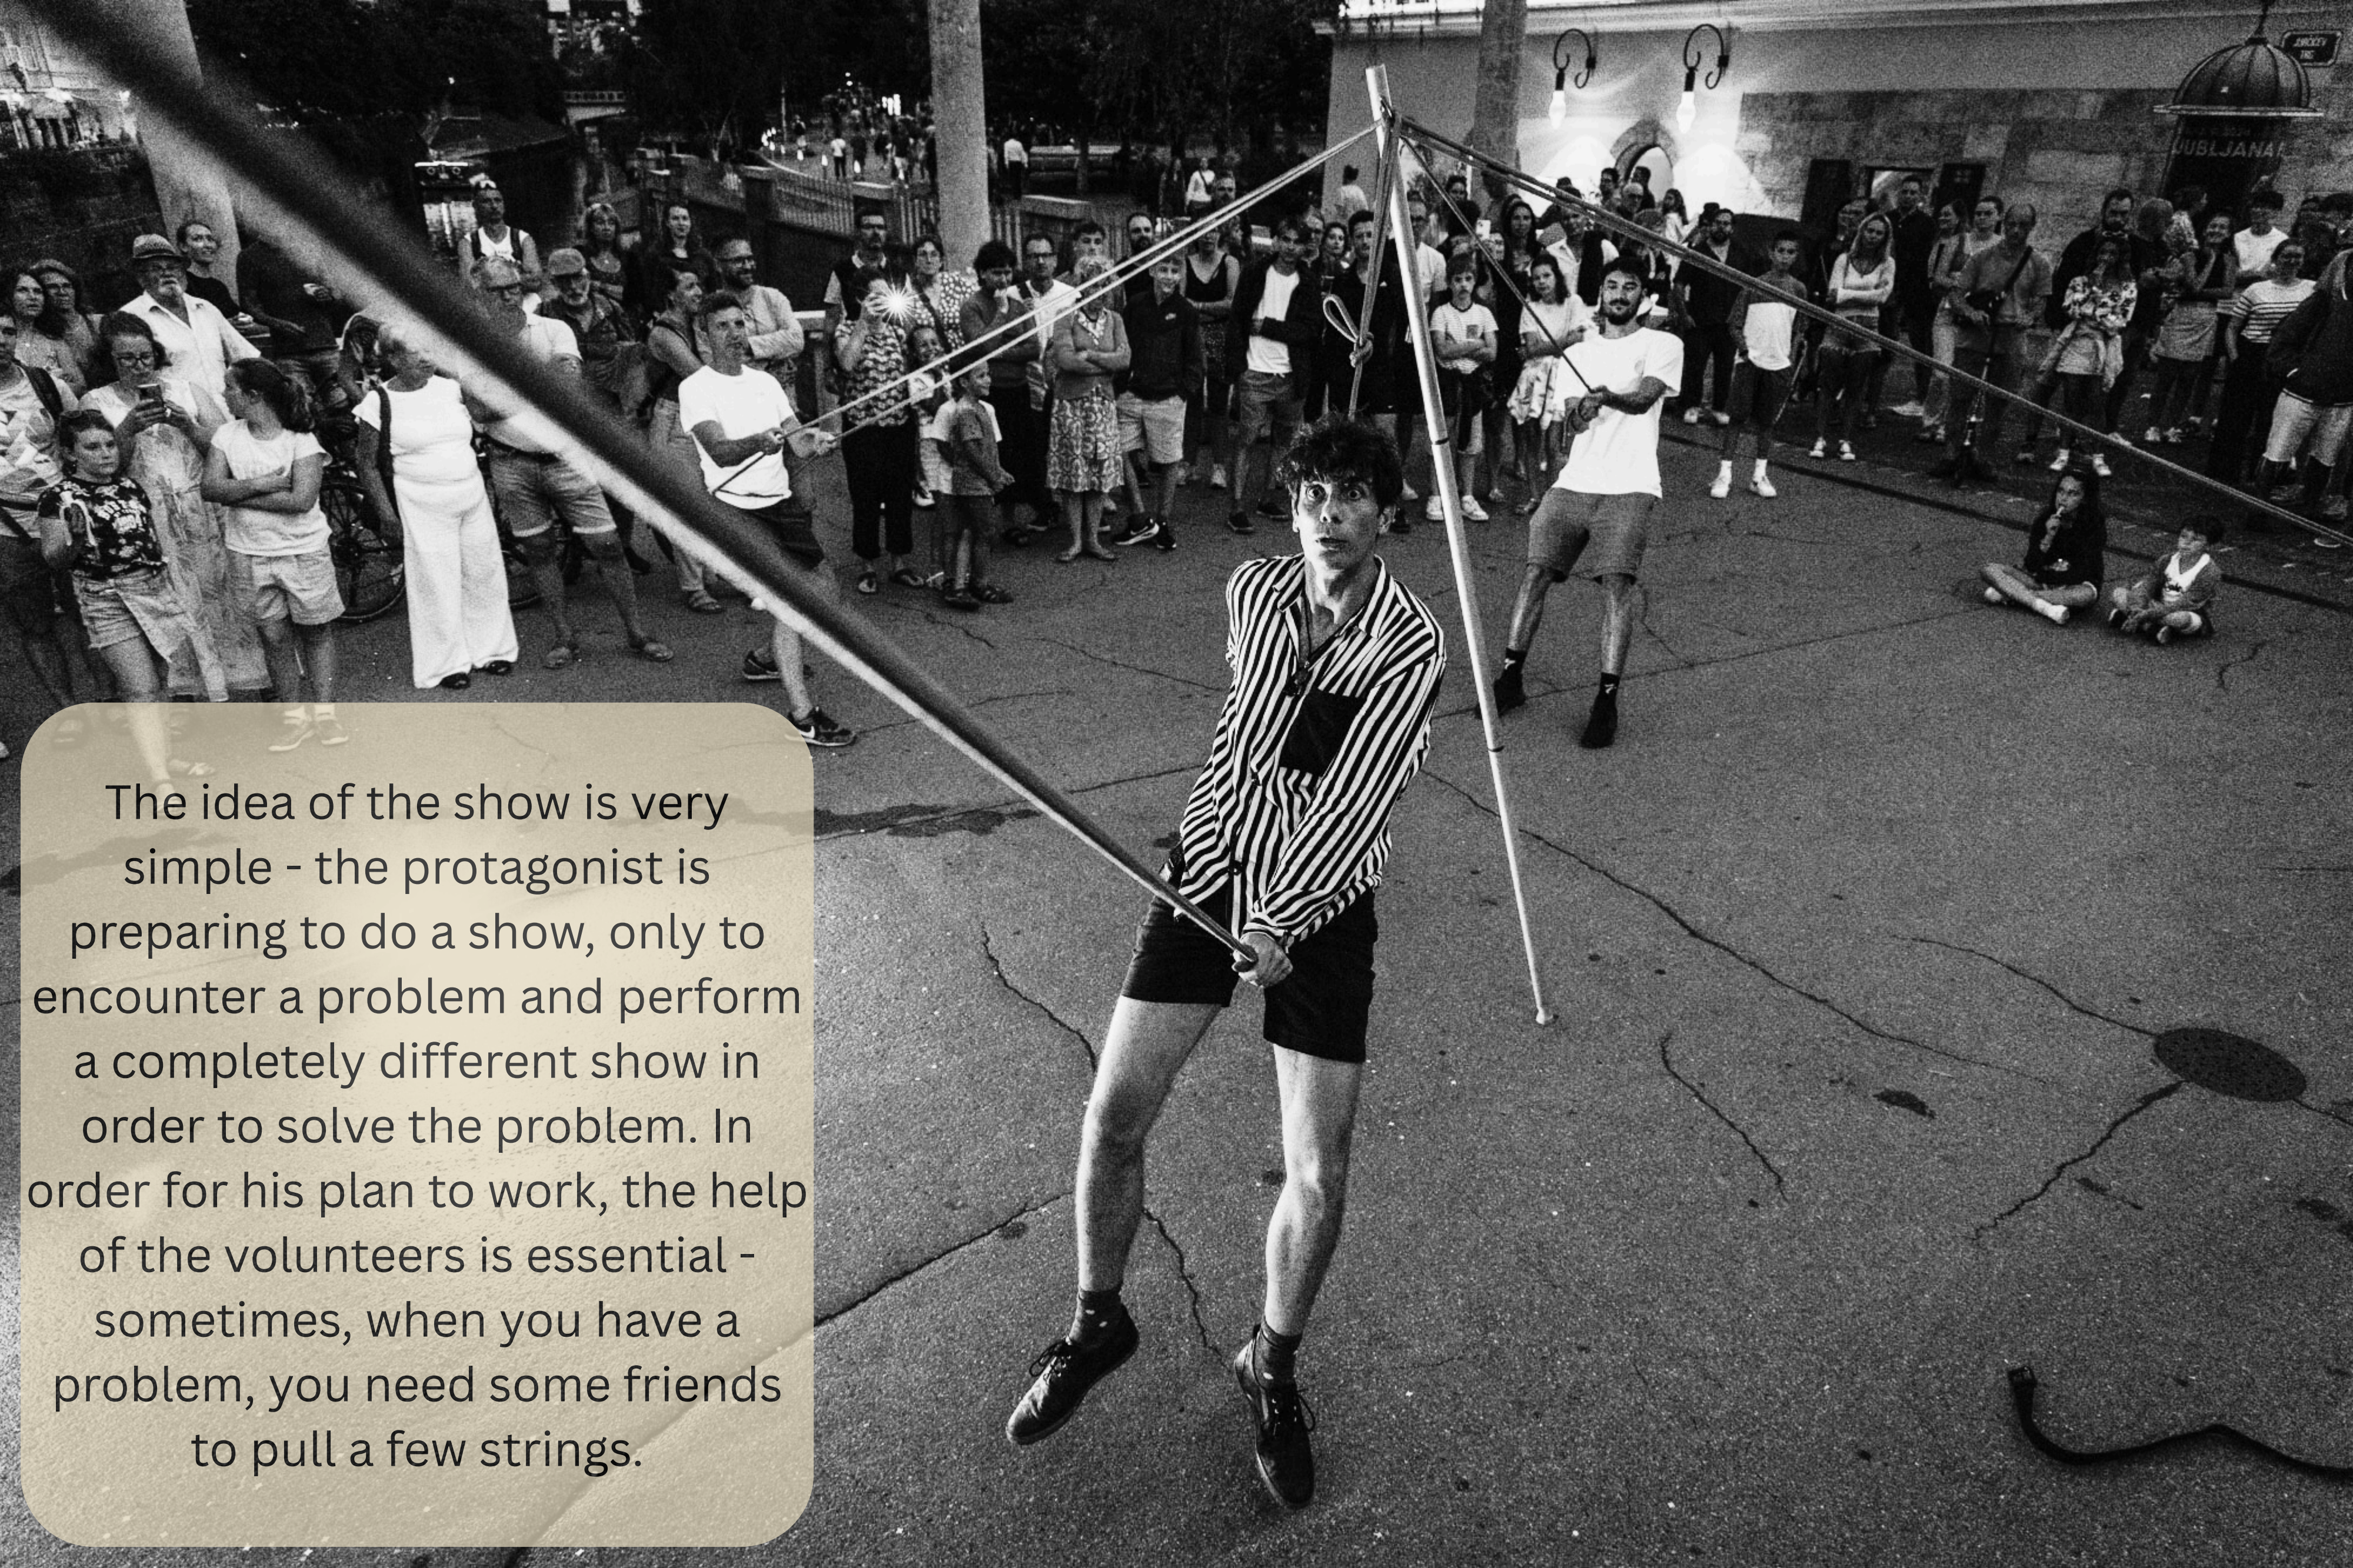

He tries many different ways to do that, only to make a clown of himself while failing.

A rope, a clothes rack and some strong volunteers. Can this be enough to do a spectacular act of funambulism in order to get that hat?

The idea of the show is very simple - the protagonist is preparing to do a show, only to encounter a problem and perform a completely different show in order to solve the problem. In order for his plan to work, the help of the volunteers is essential - sometimes, when you have a problem, you need some friends to pull a few strings.

Andrej has won the award for best street show in Kremnicke Gagy festival in Slovakia (not Slovenia) in 2023. He also won the award for best street show at 2024 Ana Desetnica festival in Ljubljana, Slovenia for the show Busker's Dream by Globus Hystericus.
